Dubai, UAE (UTC+04:00)

TECHNICAL PROFICIENCY

Languages:

HTML, CSS, JavaScript (ES6+), TypeScript

Frameworks and Libraries:

React, NextJS, Vue
Sass, Tailwind,
ContextAPI, Redux, Pinia
React-Router, React-Query, RTL, jest
React Native

Tools:

Markdown, JSDoc,
DeckGL, MapBox,
WebSocket, RESTful API,
Docker, Linux OS,
Git, GitHub,
npm, yarn, Vite, Webpack, Parcel,
Figma,
Familiar with: Python, Bash, C#

SKILL:

User Interface (UI) Development
Cross-Browser Compatibility
Mobile-First Development
Web Accessibility (WCAG)
Performance Optimization
API Integration
Data Visualization

CERTIFICATION

RESPONSIVE WEB DESIGN FCC (2019)

CS50 - Harvard - edX (2020)

FOUNDATIONAL C# - MS / FCC (2023)

LANGUAGES

Arabic (Native - Egyptian)
English (Full professional proficiency)

ABOUT ME

Motivated and enthusiastic Front-End Developer with a keen eye for clean and artful web design, focusing on creating easy-to-use experiences. Experienced in developing reusable, tested, and well-documented code. Proven ability to collaborate effectively within cross-functional teams to deliver high-quality web applications.

EXPERIENCE

Front End Developer - **NexaBuild** *Remotely, Jan 2024 - July 2024*

- Leveraged modern web development tools and frameworks such as **ReactJS**, **NextJS**, and **TypeScript** to create efficient, scalable, and maintainable codebases.
- Collaborated with cross-functional teams, including designers and back-end developers, to ensure seamless integration of front-end and back-end components.
- Successfully integrated **RESTful APIs** to enable seamless data communication between the front-end and back-end systems, enhancing functionality and interactivity.
- Visualized **GeoJSON** data in a 3D map using **DeckGL** and **Mapbox**, enabling dynamic and interactive data representation.
- Adhered to industry best practices for code quality, including unit testing with **Jest** and integration testing with **React Testing Library**, leading to robust and reliable web applications.

Junior Front End - **Freelance** *Remotely, Mar 2021 - Jan 2024*

- Delivered tailored front-end solutions for multiple companies, ensuring successful project completion across diverse industries.
- Worked closely with company teams to complete existing projects, meeting client requirements and ensuring seamless integration.
- Developed high-performance Progressive Web Applications (**PWAs**) using **TypeScript**, enhancing user experiences on both desktop and mobile platforms.
- Ensured all applications **worked flawlessly across different browsers**, maintaining consistent functionality and design.
- Prioritized **mobile-first design** principles to create responsive and user-friendly web applications.
- Implemented accessibility best practices**, ensuring applications were accessible to all users, including those with disabilities.
- Enhanced application performance through code optimization and efficient resource management.
- Successfully integrated **RESTful APIs** for seamless data communication between front-end and back-end systems.
- Utilized data visualization tools like **D3.js**, **DeckGL**, and **react-map-gl** to represent complex data in interactive and dynamic formats.
- Followed industry best practices for code quality, including unit testing with **Jest** and integration testing with **React Testing Library**.
- Utilized **WebSocket** for real-time data communication, enhancing application interactivity and performance.

PROJECTS

Islamic Prayer Times

A Progressive Web Application that provides You with Hijri Date, Prayer Times, and The Remaining Time for the next prayer depending on your time zone. Available as an extension for **Firefox** and **Chrome** with a user rating of 5 stars.
